Subject: Microsoft Settlement

Dear Sirs,

My husband and I urge the acceptance of the agreement reached between Microsoft and the DOJ and some of the states.

We are tired of companies like Sun Microsystems resorting to lawsuits to gain market share instead of good old R and D and marketing efforts on their part.

We also feel that the agreement is fair to all parties involved.

We need to stop wasting resources on lawsuits and let the companies get back to work and get our economy going.

We feel that the lawsuit was without merit and should be settled as soon as possible.

Very Truly Yours,

Margaret and John Huson
